

Milestones 2020

1. Defined future rail contractor rail career pathways (KM)
2. Identified existing approval processes for the implementation of new technology by Rail Operators. Profile overseas technology and benefits that could be adopted in Australia (TM)
3. RCG Members have benchmarked their workforce gender diversity and set gender diversity targets and actions to achieve these (SB)
4. Provided representatives to support the development of the competency matrix for electrical and power disciplines (MH)
5. Supported ARA in the implementation of the recently developed signalling matrix (DR)
6. Developed the rail contractor industry input to the ACA procurement strategy and provide feedback/input to the ACA on the proposed "10 Point Plan" scorecard (JS)

Strategic Investments

Support building an improved Rail Profile

Profile Rail Contractor Careers
