

UNDERSTANDING RAIL COURSE 2019

This two-day course provides a comprehensive overview of the Australian Rail Industry from the various elements that make up railway track to the strategic direction of the industry.

Presenters include CEOs, Executive General Managers, Directors and other key members currently working in rail who have a wealth of knowledge to draw upon and share with attendees.

Whilst the course was initially established in 2006 as an introductory course for people new to the industry, the course is also favoured by those who have assumed a different or broader role in rail and is considered a useful revisit of the entire Industry for those who have been in the industry for years.

Understanding Rail is a great opportunity for anyone working in the rail industry to learn about the industry directly from key members in the industry.

Learning outcomes

Throughout the two-day course, attendees will:

- gain an understanding of the core elements of rail;
- learn about the complexities of railway operations;
- acquire an understanding of the issues facing the rail industry;
- develop a comprehensive outlook of the future direction for rail, and
- meet and network with colleagues working in a broad variety of roles in the industry.

Who should attend?

Those working in all areas of the rail industry including:

- Operations
- Infrastructure
- Engineering
- Rail Projects
- Policy
- General Management

Testimonials

Best course/conference on rail I have attended in 10 years in rail!

Will be recommending others in my organisation to attend future offerings.

Very informative course. Will highly recommend to colleagues.

Appreciated the content and make up of the course, well put together and right interest level.

Overall a really excellent course packed with valuable information.
