

RAIL INFRASTRUCTURE CONTRACTORS STRATEGY 2023-2025

Focus Areas

Systems Integration

Develop guidance material for consistency and improved outcomes.

Management Plans

Identify opportunities to streamline management plan requirements for tenders.

National Pre-Qualification

Investigate the implementation of a national pre-qualification scheme for rail infrastructure projects.

Skills development and micro credentials

Identify priority micro-credentials and national competencies that will support rail constructors.

Work in Rail support

Make rail construction a more attractive sector.
